

INTRODUCTION TO MANUS APP

The Manus app is a modern age tradesman marketplace that utilizes sophisticated technologies such as Global Positioning System, Big Data, Artificial Intelligence, Blockchain, and Smart Contracts to enable connectivity between local tradesmen and customers seeking for Do-It-Yourself (DIY) tasks round the clock.

It is first of its kind service and skill sharing platform that is built entirely on blockchain and use a cryptographic mode of payment i.e. Manus Token for payments, and considering its cutting-edge business model.

We aim to simplify and bridge the gap between available tradesmen and DIY tasks that customers want. The main objective is made on making the process of hiring a tradesman easier, so that, for them in the literal sense of this expression, there are no limitations of time, distance or weather conditions.

We believe that Manus app platform will boost tradesman business by allowing peer to peer connectivity between tradesmen and customers, where all transactional activities are trusted i.e. having no middleman involved, and as a result, enable them to not only take the fair share of what they earn, but also contribute towards the betterment of the socio-economics of the area.

In the Manus financial ecosystem, all transactional activities are to be deployed on a decentralised blockchain which ensures transparency, visibility, credibility, immutability and complete autonomy of the community.

MISSION STATEMENT

We aim to bridge the gap between the availability of tradesmen and urgency of customer's DIY tasks, while at the same time, ensuring that the governance lies within the community—enabling all parties to get their deserved share of earning.

Manus is here to Revolutionise, Innovate and Disrupt the DIY Market.

MANUS SOLUTIONS

HOW IT WORKS?

Tradesmen and customers could visit the company's website, the App Store or Google Play, download and easily install the Manus app on their Smartphone (iPhones and Android phones). Once installed on their phone, the customer will complete a short registration before starting their search for tradesmen based on availability and locality.

CUSTOMER (BUYER) BENEFITS

No extra fee : Customers no longer have to pay extra fee for order placement or transfer of money/tokens.

Available for everyone : A platform that enables customer access to different tradesmen on demand, 24/7 and 365 days a year in one handy place.

Time-Saving : Saves time by placing orders with a few taps on your mobile phone.

Decentralization and Transparency : Quality assurance through deployment on a decentralized blockchain, Smart Contracts, and Smart reviews.

Suitably qualified and vetted tradesmen : All tradesmen must supply 3 references and be DBS registered.

No geographical Limitation : The platform is not restricted to any geographic location, thus allowing anyone to hire a tradesman for their services anytime anywhere.

User Friendly : Manus provides ease of use through a user-friendly interface.

Enable access to a Broader Marketplace : Access to a broad marketplace of tradesmen with a few taps on a Smartphone anytime and anywhere.

SETTING STANDARD USER PROFILE

A highly secured digital wallet powered by Manus token will be integrated to the Manus platform. It can be used for sending, receiving or making payments in a peer to peer manner and for order activities happening within the Manus platform. The wallet would be linked to Manus application and it would allow automatic processing of payments by accepting payments in Manus tokens directly.

Installing Manus Wallet

- Manus wallet can be downloaded from our website or a reserved button within the Manus App.
- Wallet would allow peer to peer mode of transfer and exchange of value between Manus token holders without any transactional fee in a seamless cost-effective manner.
- Both tradesman and customers can download wallets and link the public key to their respective Manus app accounts for receiving payments via Manus app.
- Smart Contracts would be linked to these wallets and autonomously deduct the amount from a customer upon order placement and deposit amount into the tradesman's wallet on successful execution of the service

REVENUE GENERATION MODEL

REVENUE GENERATED FROM ORDERS PLACED ON MANUS MARKETPLACE

Every job agreed between customers and tradesmen will generate an hourly fee of £60. This is collected after job completion by a payment platform. Of this £60 fee, 85% is paid to the tradesman and 15% retained by Manus. If payment is made via fiat money, 80% is paid to the tradesman and 20% retained by Manus. This amount generated is used for the operational, managerial, development and maintenance of the Manus platform.

CEO

ERVIS IBIRA

A serial entrepreneur having founded and grown the following:

- Grand Projects Contractors Ltd –construction company
- Atlas Property Brokers Ltd- Property sourcing
